

I am requesting that the FCC stay out of the Internet. It is the free exchange of ideas among our citizens and is protected from regulation by the First Amendment. As you have seen the arguments made by advocates of so-called net neutrality regulations have been proven FALSE by nearly a decade of experience since their concerns were first raised. These "net Neutral" regulations would not result in same, but would, in fact, eliminate the viewpoint of one side in any argument. The vast majority of Internet users are not clamoring for regulation. Self-styled consumer groups asking for regulation actually represent an EXTREME left-wing ideology that is hostile to free-market capitalism seeks only government expansion. That is not the position of the "grassroots" or most American Internet users. I urge you to reject new regulations and allow the free-market Internet to continue flourishing.
