

I RESPECTFULLY REQUEST THAT FCC NOT USE NET NEUTRALITY

I am an American citizen who has had a relative in every major war since the American Revolution. They fought for freedom and Free Speech. The internet/net/cable/radio IS a beacon of freedom and free speech. I work hard while trying to raise a family; I am trying to live the American dream. Any government interference using Net Neutrality goes against "Free Speech", the ability for ALL Americans to reach out and be heard. I support ALL speech even if it is not my view point of view. The current system allows this to continue.

QUESTION

Why would we need to restrict free speech using NET NEUTRALITY if there has never been a time where it is more free for any American to share any view point?

ANSWER

Sadly, radical special interest groups are trying to control the flow of information. Nothing could be more Un-American. To be American is to be FREE.

ADDITIONALLY

The arguments made by advocates of so-called net neutrality regulations have been proven false by nearly a decade of experience since their concerns were first raised. The Internet is a remarkable free market success story, and the vast majority of Internet users are not clamoring for regulation. Self-styled consumer groups asking for regulation actually represent an extreme left-wing ideology that is hostile to free-market capitalism and puts its trust in government. That is not the position of the "grassroots" or most American Internet users. I urge you to reject new regulations and allow the free-market Internet to continue flourishing.
