Re: MB Docket 10-56

Dear Chairman Genachowski:

Equality Forum is a national and international gay, lesbian, bisexual and transgender civil rights organization with an educational focus. Equality Forum is headquartered in Philadelphia.

Equality Forum among other initiatives oversees GLBT History Month, which is a national and international project and presents the largest annual GLBT global summit.

For more than ten years, Equality Forum has collaborated with Philadelphia affiliate NBC10/WCAU. Equality Forum prizes this relationship. The station has been invaluable in its fair and accurate reporting about the GLBT civil rights movement and the multiplicity of unique issues facing GLBT citizens.

We fully support the union between NBC and Comcast and by extension NBC10 with Comcast. This amalgamation enhances our collaboration with NBC10 and its ability to strengthen its local broadcasting and the communities it serves.

We support an expeditious conclusion to the pending application.

Sincerely,

Malcolm Lazin  
Executive Director  
Equality Forum
