

COMMENT ON RM-11599:

I, Lewis Kevin Raper, Chief Engineer of standard broadcast radio station WCKI, 1300 KHz in Greer, SC hereby submit my Comment in support of RM-11599 which requests authority to begin broadcasting with pre-sunrise power of 500 watts commencing at 5:00AM for stations operating on regional channels. Operation with 500 watts pre-sunrise at 5:00 AM will allow WCKI an opportunity to reach out to additional listeners during the early morning than is currently realized with 94 watts.

CERTIFICATE OF SERVICE:

I, Lewis Kevin Raper hereby certify that I forwarded a copy of this Comment on May 3rd, 2010 via email to the Petitioner Richard F. Arsenault at the following email address: radioservices@ieee.org
