Re: Ex Parte Notice. WC Docket no. 90-95. In the Matter of Applications filed by Frontier Communications Corporation and Verizon Communications, Inc. for Assignment or Transfer of Control

**FOR PUBLIC INSPECTION**

Dear Ms. Dortch:

On May 4, 2010 Debbie Goldman of the Communications Workers of America (CWA), Susan Baldwin Consultant to CWA, and I met with Alex Johns, and Carol Simpson of the Wireline Competition Bureau/Competition Policy Division; Virginia Metallo, Neil Dellar and Jim Bird of the Office of General Counsel; Nick Alexander of the Wireline Competition Bureau/FO and Matt Warner, and Don Stockdale to discuss the above-captioned proceeding. The attached Power Point and related documents formed the basis of the presentation. The presentation focused on broadband, cutover and system integration aspects of the proposed transaction.

Attached are the following documents for public inspection:

- chart entitled, "Percentage of Net Income Paid Out in Dividends of Selected Telecommunications Firms -2009";
- Ex Parte Presentation May 4, 2010;
- Correspondence dated May 3, 2010, from Joseph J. Starsick, to the Executive Secretary of the West Virginia Public Service Commission; and
- CWA Proposed Non-Financial Conditions – Verizon/Frontier Transaction.<sup>1</sup>

---

<sup>1</sup> Please note that on page 1 of the document the typographical error was noted during the May 4, 2010 meeting. In the following sentence the second use of the word "downstream" was intended to be the word "upstream". The corrected sentence reads as follows, "By 2015, 80 percent of consumers covered by the transaction shall have the ability to receive 50 mbps downstream and 20 mbps upstream."

If you have any questions or concerns please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Vincent Trivelli', with a long horizontal flourish extending to the right.

Vincent Trivelli
