We have to make sure sorensen isn't brought down by the FCC. I don't think it's a rumor or such, we have to make sure we're supportive of Sorensen and it's purpose to help all the deaf people communicate. The deaf people are good communication to help someone interpreter need emergency for any doctor, hospital and my family and I still keep it supportive for VRS is good and we will give a god blessing to someone VRS and They don't closed to VRS please try it make better for someone still contiunework for VRS.
