

Having three sirius accounts and one XM account I canceled my XM account. I thought. They said I had a nine dollar credit. That credit blossomed into a \$24.85 bill. I called and spoke to someone there at XM and then the bill went to over \$27. I told them to forward the credit and they finally canceled the bill. (yet to be seen) and that I would owe nothing. I asked to cancel by sirius accounts also. They said they couldn't as it was XM only. I told her that on the radio it comes up as XM Sirius radio. Are we still having a problem with the merger? The reason I am taking the time to do this is I hate to be "done over" like this and I told them I would file a complaint with the FCC. Thank you
