

Cutting this company off would be detrimental to the deaf community. TTY has become increasingly outdated. Cutting funding would not only force this company into bankruptcy but more importantly cause equal rights to take a huge step back. It is no different than if our cell phones were ripped away from us. Videophone gives the deaf community an opportunity to express themselves in ways they otherwise would never be able to. For many this is their only means of communication. Please consider other options such as a charge for the service.
