

After reviewing the aired piece on VRS via the internet and it's current funding issues, I wanted to add my voice to the thousands out there who realize the importance of a quality service for our deaf community. I believe that a bridge to no where being funded by the government is a travesty if it takes funds away from this worthwhile service. I work in a Pediatric hospital in Texas, as a matter of fact I am Dr Jennifer Arnolds, of the "Little Couple", assistant and intend to bring this issue to her attention as well. Please reconsider and value the enormity of this decision you are making.
