**Re:** Transition of Broadcast Auxiliary Service Licensees in the Indianapolis DMA  
*Improving Public Safety Communications in the 800 MHz Band*  
WT Docket No. 02-55 and ET Docket Nos. 00-258 and 95-18

Dear Ms. Dortch:

Pursuant to the Federal Communication Commission's *Report and Order* in WT Docket 02-55 ("*800 MHz R&O*")<sup>1</sup> and as set forth in the BAS Relocation schedule and Implementation Plan ("*Implementation Plan*")<sup>2</sup> all BAS licensees must be relocated from the 1990-2110 MHz band to the 2025-2110 MHz band. The *Implementation Plan* indicated that licensees would be relocated by markets and that once all of the licensees in a particular market have installed new digital equipment, the licensees will simultaneously convert to the new compressed channel plan. The *BAS Transition Public Notice*<sup>3</sup> announced licensing procedures to facilitate the transition of Television Broadcast Auxiliary Service ("BAS"), Cable Television Relay Service ("CARS") and Local Television Transmission Service ("LTTS") licensees.

Further, the Commission directed Sprint Nextel Corporation ("Sprint Nextel") to file timely reports in the above-referenced dockets when each of the remaining twenty-eight designated market areas ("DMAs") completed its relocation.<sup>4</sup> Accordingly, Sprint Nextel hereby notifies the Commission that all the subject licensees in the Indianapolis DMA<sup>5</sup> have transitioned to the 2025-2110 MHz band. Attachment A identifies the licensees that have transitioned to the new band plan. Concurrent with filing this Notification, Sprint Nextel also has provided copies of this Notification via email to the licensees in the Indianapolis DMA listed in Attachment A.
