RE: MB Docket No. 10-56

Dear Chairman Genachowski:

As President and CEO of the Detroit Area Agency on Aging (DAAA), I want to express my organization's support for Comcast's joint venture with NBC Universal. Even in this difficult economy, Comcast has supported our organization on many different levels and its programming, serves the needs of seniors in the Detroit area.

At the DAAA, our mission is to educate, advocate and promote healthy aging to enable people to make choices about home and community-based services and long term care that will improve their quality of life. Comcast's support for our programs helps us execute this mission and we are grateful to call the company a long time partner.

For the last few years, Comcast has made it possible for us to conduct some of the most important community outreach programs and services DAAA provides. In fact, DAAA honored Comcast with our Community Relations Award for its commitment to community service in the Detroit area.

Comcast is also responsible for keeping our community connected. Comcast provides courtesy broadband and phone services to many institutions we work closely with, including senior centers, libraries and local governments.

Comcast has demonstrated that it is a strong partner to DAAA and the Detroit community. Please keep these considerations in mind during your review process.

Sincerely,

Paul Bridgewater
President and CEO
