Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing you today to express my support for Comcast Corporation and its venture with NBC Universal.

As one of the leading providers of phone, video and internet service in Phoenix, Comcast plays a key role in the lives of the residents of my community. When Comcast took control of the franchise in Phoenix in 2002, they immediately invested in the infrastructure in our community to improve the service delivery to our residents. Comcast has continued its involvement in Phoenix over the years and have supported our primary community event, "Phoenix Fest" over the last 6 years through sponsorship support. Comcast also held a Comcast Cares volunteer event in Phoenix where in partnership with local residents they helped several deserving seniors with much needed maintenance work on their properties. I am heartened by Comcast's commitment to supporting the local communities that they serve and in forging local partnerships.

Comcast has also graciously provided me the opportunity to bring attention to issues affecting Phoenix to a wider audience through their *Newsmakers* program.

For a company that has a very large national presence, Comcast has remained committed to supporting and serving the local communities it serves and has been a good corporate citizen in my community.

Given my positive experience in dealing with this company, I encourage you to approve Comcast's partnership with NBCU.

Sincerely,

Terry R. Wells, Mayor
Village of Phoenix

CC: Commissioner Michael J. Copps
Commissioner Robert McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
