RE: MB Docket No. 10-56

Dear Chairman Genachowski:

I am pleased to offer the views of the Chester County Chamber of Business and Industry on the Comcast-NBC Universal joint venture that is currently under consideration by the Commission.

The Chester County Chamber of Business and Industry began as an instrument for activism and community involvement among like-minded business leaders. Through membership and community initiatives, the Chamber works towards extending the exceptional quality of life enjoyed by the residents and workers of Chester County. Years of solid growth and commitment from the Chamber's membership has brought the organization to where it is today, a vibrant and forward thinking association of businesses ready to embrace the challenges of the 21st century. As you can imagine, we are greatly invested in seeing that Chester County move forward as a great place to live, work, and raise a family.

Comcast is equally committed to improving Chester County and has shown its support for our community in numerous ways. Comcast has sponsored a number of our annual events, small business programs, and government affairs forums, which it airs on the local community access channel. The company is also a strong supporter of our Youth Leadership Program, the goal of which is to create opportunities for Chester County high school students of diverse backgrounds to develop leadership skills, learn about Chester County-based career options, and to interact with leaders of major industries countywide. We have also been proud to work with Comcast on its very successful Comcast Cares Day, during which the company's employees and families donate hundreds of hours of community service.

Comcast has long demonstrated to the people of Chester County that it is invested in the future of this community. I think this is illustrative of a company that stands by its commitments when it comes to localism and serving the interests of consumers. Please keep these thoughts in mind as you review Comcast's and NBC's plans for their joint venture.

Sincerely,
