RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

The Montclair Neighborhood Development Corporation was founded in 1969 by a group of concerned citizens and community activists. Since then, we have worked hard as a non-profit community-based social service agency to offer adult education, crisis intervention, supportive services and youth programs.

We have collaborated closely with Comcast for several years. The company has been an avid supporter of our organization. We have also had the pleasure of working with individual employees from Comcast who's support of, dedication to and commitment to our community is second to none.

Additionally, Comcast has contributed immensely to youth development through programs such as Cable in the Classroom. This program seeks to provide resources, such as complimentary cable and broadband, to schools, families and teachers to engage our youth and fully prepare them for high tech twenty-first century jobs.

We wish Comcast the best of luck and support it in its joint venture with NBCU and I look forward to working with them for years to come.

Sincerely,

Albert Pelham
Executive Director
Montclair Neighborhood Development Corporation
