

First my own words are the following: I am a Comcast customer and have been for 2 years. In the time I have had them my internet service is limited on many levels. They kill my connection when I am using bandwidth, and I have to manually renew my IP all the time. Dont let these people take over something else. Americans will only take so much.

I am writing to voice my opposition to proposed Comcast-NBC merger.

A merger of this size would give one company unprecedented control over media content and platforms. It would allow the largest cable and Internet access provider to control one of the nation's largest media companies. It would also give Comcast-NBC an incentive to prioritize its own online content over other content and stifle the free flow of Internet traffic.

That's too much power for one company, and it threatens competition and innovation at a moment when new forms of online video delivery are emerging.

This merger would negatively affect competition and prompt a new wave of media consolidation as other companies scramble to match Comcast-NBC's market power, making these problems even worse.

A bigger, more powerful Comcast will do nothing to address the pressing need for better media in our communities and our democracy. The FCC must stop this merger.
