Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am contacting you to express my support for Comcast's proposed partnership with NBC Universal. I am the President of Social Capital, Inc. (SCI) of Woburn, Massachusetts, and have experience with Comcast as a corporate partner that invests in our kids.

Comcast has been a terrific supporter of our programs to get youth more involved in their communities. SCI's youth civic engagement program fosters new approaches for empowering youth to develop active citizenship and leadership skills. Comcast has been a dedicated sponsor of our Youth Council program, which provides leadership training to youth who mobilize their peers to get involved. Comcast realizes a focus on our children is essential if we are to reverse the long-term decline in civic engagement.

Last year Comcast brought its Comcast Cares Day effort to the Milford Youth Center. This event allowed local volunteers and our students to have a direct positive impact in their community by working alongside Comcast employees in the painting and landscaping of the Youth Center. Comcast is also a sponsor of our annual Martin Luther King, Jr. scholarship program in Woburn, MA.

I am also well aware of what Comcast is doing beyond its work with our program to help underprivileged kids gain access to the Internet. By setting up Digital Connector sites around Massachusetts in partnership with One Economy and wiring our schools and libraries at no cost, Comcast is giving our young people the chance to learn and prepare for the life ahead of them.

Comcast has played a key role in helping SCI develop leadership skills in our children here in Massachusetts. I hope you will recognize this and support Comcast in its proposal to join with NBC Universal.

Sincerely,

David Crowley, President
Social Capital Inc.
