Dear Chairman Genachowski:

As the Director of the Boys & Girls Club of Wareham, Massachusetts, I have the pleasure of working closely with Comcast on many projects. Today, I am writing to request that the FCC permit the company to proceed with its plan to partner with NBC Universal.

For the third year in a row, our club was one of the Boys & Girls Clubs that Comcast hosted for the 2010 African American Read-In as a part of Black History Month. The program promotes a love and respect for reading. Like Comcast, we see literacy as an essential tool for all children. In addition, we receive courtesy video and internet service from Comcast, which helps us to promote digital literacy--imperative for success in our high tech world.

I also want you to know how much we appreciated the commitment of over 200 Comcast employees and their family members at a Comcast Cares Day event in 2008. They spruced up our club by painting the entire interior, performed much needed basic repair and maintenance work and landscaped the grounds. In addition, one Comcast employee made curtains for the teen room and another spearheaded painting of town sports team logos on the outside of the building. This was a very exciting event for us and a real demonstration of community spirit.

We believe Comcast shares our dedication to providing the children of Wareham with positive opportunities. We hope you will see this and approve the company's proposed venture with NBC Universal.

Sincerely,

Barbara M. Sullivan
Director
Boys & Girls Club of Wareham

CC: Commissioner Michael J. Copps
Commissioner Robert M. McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
