Re: MB Docket No. 10-56

Dear Chairman Genachowski:

It has recently come to my attention that the FCC is reviewing the joint partnership proposal of Comcast and NBC Universal. I am writing to express my full support of this action, and to inform you of the tremendous support Comcast provides year after year to my organization, Camp Fire USA Portland Metro Council, Oregon.

Camp Fire USA provides a diverse array of programs meant to enrich the educational experience of, promote civic engagement by, and provide opportunities to experience the natural splendor of the Pacific Northwest, to underserved students. We give over 10,000 youth and families the tools and skills they need to succeed at home, at school, and within the community.

Comcast has made it possible for Camp Fire USA to develop our service learning initiatives in Washington County. Service learning initiatives are community service projects which are identified by the students and then incorporated into their school curriculum. These projects help students connect their education in the classroom to their communities. Due in large part to Comcast's generosity, whether staging a products drive for migrant workers or working to restore a local wild land area, youth learn the value of giving back to the community.

Furthermore, Comcast's Vice President of Customer Care is an active member of our Board of Directors and we sincerely appreciate all of his counsel and support.

Comcast has been a wonderful partner to Camp Fire USA and I am certain it will be a great partner for NBC Universal. I hope our perspective will inform your decision on the matter before you.

Sincerely,

Keith Thomajan, President and CEO
Camp Fire USA Portland Metro Council

CC: Commissioner Michael J. Copps

Commissioner Robert M. McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
