Re: MB Docket No. 10-56

June 9, 2010

Dear Chairman Genachowski,

I am writing to let you know how much the citizens of Texas appreciate the role Comcast plays in our state and to advocate in support of its proposed acquisition of NBC Universal.

Comcast is a strong employer and stable revenue generator in the state of Texas, employing thousands of local citizens and paying hundreds of millions of dollars in State and Local Tax revenues per year. The revenues Comcast generates helps to ensure that the residents of this state are provided with the resources and services they need to live comfortably and happily. In today's economy, having a reliable revenue generator like Comcast is very important at all levels of Government.

The investments Comcast has made in Texas also speak volumes about the type of commitment it brings to individual communities. Totaling more than \$2 billion, Comcast has helped to provide the infrastructure to provide approximately 99 percent of Texas homes with broadband. This is a major advantage for our citizens to benefit from the latest in technology and the educational and training opportunities available via the medium of broadband.

I certainly hope for Comcast's continued success, and I applaud the solid corporate citizenship it has demonstrated across our Texas. I hope you will recognize what an important role Comcast plays in our economy and our communities, and move favorably to allow its acquisition of NBC Universal to progress forward.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Fraser".

Senator Troy Fraser
