Re: ***EX PARTE NOTICE***

Unlicensed Operation in the TV Broadcast Bands, ET Docket No. 04-186;
Revision to Rules Authorizing the Operation of Low Power Auxiliary Stations in
the 698-806 MHz Band, WT Docket Nos. 08-166 and 08-167;

Dear Ms. Dortch:

On June 10th, 2010, Shure Incorporated (“Shure”) met with David Goldman, Legal Advisor to Chairman Genachowski to discuss ET Docket No. 04-186 and WT Docket Nos. 08-166 and 08-167. Attending this meeting on behalf of Shure were Mark Brunner, Senior Director, Global Public Relations, and Catherine Wang and Tim Bransford of Bingham McCutchen LLP, outside counsel to Shure.

During this meeting, Shure discussed the significant progress made transitioning 700 MHz wireless microphones to core television frequencies and the very positive impact of the Commission’s consumer outreach effort. Shure also discussed several issues of critical importance to the wireless microphone community pending on reconsideration before the Commission in ET Docket No. 04-186. Shure reemphasized its belief in dynamic access and responsible frequency sharing, and expressed continued support for proven real-world technologies that advance these goals. Shure discussed a number of developments concerning cognitive radio and geolocation database technology. Shure also stressed the need for expanded wireless microphone license eligibility to ensure comprehensive protection for important wireless microphone operations in the geolocation database.
