On behalf of the 820 members of the Maryland Chamber of Commerce, please accept this letter as support for Comcast's proposed partnership with NBC Universal.

As President and CEO of the Maryland Chamber of Commerce, I work regularly with our business community and its leaders to foster the growth of our state's economy and workforce. Our members employ more than 420,000 people in the state.

Comcast has served as a distinguished member of our organization for many years, providing in-kind services such as video production as well as high level human resources including service on our Board of Directors (Lori Riordan) and on our Legislative Committee (Sean Looney). Additionally, Comcast has long served as one of our leading financial supporters, providing Platinum level sponsorship so that we can better connect our members to each other, to public policy and through enhanced communications. This financial support enables us to offer more services at lower cost to our small business members throughout the year.

Comcast's commitment to serving small and mid-sized businesses is well known throughout Maryland. Comcast provides local entrepreneurs with guidance, support and recognition, and is a leading provider of broadband services. Broadband, as you know, is key to business success. In addition, Comcast employs 4,500 Maryland residents and invests millions of dollars in our communities through charitable contributions and courtesy services to schools, libraries and non-profit organizations.

I urge the FCC to approve the partnership proposal to unite Comcast and NBC Universal. Thank you for your consideration.

Sincerely,

Kathleen T. Snyder, CCE, President/CEO
