RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

Appel Farm Arts and Music Center, located in Elmer, New Jersey, provides people of all ages, cultures and economic backgrounds with a supportive, cooperative environment in which to explore the fine and performing arts. The Center offers a concert series, a summer camp and classes for our community. Please take Comcast's efforts to assist our organization and the Elmer community into account in your review of Comcast's proposed partnership with NBC Universal.

Appel Farm looks for partners who take our cause seriously and are willing to lend a helping hand. We have found such a partner in Comcast. The company has helped put together our annual music festival, as well as volunteer at our organization during Comcast Cares Day. We have also had the pleasure of working with Comcast employees both as board members and advisory members of our organization. These efforts demonstrate that Comcast and its employees value the community they serve.

We greatly appreciate our partnership with Comcast and its positive community involvement and good corporate citizenship.

Sincerely,

Mark Packer
Executive Director
