Commissioner Robert M. McDowell  
Commissioner Mignon Clyburn  
Commissioner Meredith Attwell Baker  
Federal Communications Commission  
445 12th Street SW  
Washington, DC 20554

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

During my tenure as President of the Fayette County Chamber of Commerce, I have found it is vital to have a diversity of business voices in our community to encourage development of new ideas and innovations that are good for the local economy. One of our most valued voices is that of Comcast.

The Comcast office in Peachtree City, Georgia employs 65 local workers. These jobs are family-sustaining and stable, which in these turbulent times is even more impressive. And just last year, Comcast completed its DOCSIS 3.0 roll out in Fayette County, this next generation broadband network augments a local broadband infrastructure that continues to play a strong part in our economic development.

Comcast is a regular contributor to our local civic programs as well. Comcast Government Affairs Vice President Andy Macke has been a member of the board of our Chamber of Commerce for six years, providing leadership with his vast experience over his career. And by developing the Comcast Community Channel, Comcast brings a super-local link to hometown news into our residents' homes.

I know you are reviewing the new joint venture between Comcast and NBC. As you review this transaction, I hope you will consider our experience with Comcast here in Fayette County— great service, civic leadership, and a true community partner.

Thank you for your time.

Sincerely,

Virginia Gibbs  
President

Fayette County Chamber of Commerce
