Options and Opportunities for People with Disabilities

June 15, 2010

The Honorable Julius Genachowski
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing this letter on behalf of Shelby Residential and Vocational Services, Inc. (SRVS) of Memphis, TN. Our organization's partnership with Comcast is so meaningful that we wanted to express our support for the company's plan to merge with NBC Universal.

Each day SRVS provides comprehensive services for over 800 people with developmental disabilities. Since our inception in 1962, our goal has been to help our service recipients pursue options and opportunities which enable them to live fulfilling lives.

But we cannot do this work alone. We rely on corporate partners throughout Memphis to assist us. Comcast shares our belief that opportunity is a commodity that must be available to every member of the community. We saw this first-hand at last year's Comcast Cares Day. Company employees, their friends and family spent the day working with us on landscaping projects, interior painting and the creation of beautiful murals. It was a day of amazing cooperation that fostered a true sense of community.

It's our hope that Comcast continues to thrive as a business and community partner in Memphis and across the country. Even during these tough economic times Comcast has not backed down from its commitment to our endeavors. Please consider the company's important contributions to our organization and community as you make your decision on the merger issue.

Sincerely,

Jeffrie Bruton
Executive Director
Shelby Residential and Vocational Services, Inc.
