Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

For the last quarter century, I have served as Mayor of Carlisle, Pennsylvania. Over the course of these years, I have worked to improve public safety and housing, increase economic development, and revitalize our downtown area. Moreover, I have worked hard to develop a sense of community among my constituents. In many of these endeavors, especially in those that relate to community-building, Comcast has played a significant role and has been a long-time trusted partner to our Borough.

One of our signature events is our annual July 4th celebration – Stars Burst Over Carlisle – when we organize family-friendly events such as mini-golf tournaments, musicals featuring Carlisle residents, outdoor symphony performances, outdoor movies and, of course, a spectacular fireworks exhibit. Comcast understands the importance of celebrating our nation's history and the event's importance to our community, and has partnered with us to ensure that the event takes place every year.

Stars Burst Over Carlisle is far from the only community activity that Comcast has worked with us on. From public service announcements, to mass volunteer-mobilization community service days, to discussions of public interest issues with Borough council members and me on their Newsmakers program, Comcast has been a trusted partner in our community's efforts to make Carlisle a better place to work, live and raise a family.

Comcast has earned my trust because it has kept its promises and in many cases, over-delivered on its commitments to our community here in Carlisle. I have no doubt that the proposed venture between Comcast and NBC will serve the country as well as Comcast has served Carlisle over the past two decades.

Sincerely yours,

Kirk Wilson, Mayor
Carlisle Borough, Pennsylvania
