Re: *Docket No. WT 10-59*
Amendment to Request for Special Temporary Authority

Dear Sir or Madam:

Stratos Offshore Services Company (“Stratos”) hereby submits this amendment to its pending application for Special Temporary Authority (“STA”), submitted to the FCC via overnight delivery on February 22, 2010, and accepted on March 8, 2010, in order to provide the Commission with information as to the dates of installation of the links that are the subject of the STA.

Based on a review of our records, Stratos has determined that the sites referenced in the accompanying attachment have been operational in the 2.3 GHz band since the dates indicated to the present, without first obtaining FCC licensing authority. Links 1-14 and 18 were placed into operation by Stratos. Links 17 and 19 originally were placed into operation on other spectrum, either pursuant to FCC license or on an unlicensed basis, by Shell Offshore Services Company (the prior holder of the Wireless Communications Service licenses in the Gulf of Mexico). Following the assignment of the WCS licenses to Stratos, Links 17 and 19 were modified to operate in the 2.3 GHz band on the dates specified in chart attached hereto.

Stratos notes that the attached chart contains references to Links 1-14 and 17-19. There are no references to Links 15 and 16 because those planned links were not placed into service.

Kindly contact the undersigned with any questions you may have regarding this amendment.

Sincerely,

/s/ Bruce A. Henoch
Bruce A. Henoch
