RE: MB Docket 10-56

Dear Chairman and Commissioners:

As Mayor of Alpharetta, Georgia, not a day goes by that I don't think about the economy and the state of the workforce in my community. I consider it a personal challenge as Mayor to maintain the jobs we have while creating new jobs for the unemployed. I look to other sectors of our government for new ideas to promote the local economy; I look to local businesses for original plans for economic development; and I look to the national businesses with a presence in Alpharetta to be leaders in promoting good business values and practices and to provide jobs. Comcast is one of the companies that continually inspires our community.

Comcast employs over 1,000 people in Alpharetta in a regional call center, a cable service store and an operations support location. These jobs are stable and prosperous. As we look to the future, jobs in innovative and growing sectors are critical to our future and I feel confident that Comcast will continue to be a leader in these areas.

Additionally, Comcast is active in our community. The company sponsors local events such as our Taste of Alpharetta festival and our local American Cancer Society Relay for Life event. Local Comcast leaders are also leaders in our community, serving on the board of our Chamber of Commerce and volunteering throughout the community. Comcast headlines its volunteer efforts with the Comcast Cares Day program, in which its employees join with our local groups for a day of civic engagement and volunteerism. In the last two years, we have had these events at Alpharetta High School and our community garden. I appreciate Comcast's commitment to local leadership and involvement, and I know the other citizens of Alpharetta do too.

I look forward to a continued relationship with Comcast. I know you are reviewing the new partnership between Comcast and NBC and I hope you will keep in mind our experiences with Comcast during your process. Thank you for your time.

Sincerely,

Arthur G. Letchas, Mayor
City of Alpharetta
