Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing to urge your approval of the partnership between Comcast and NBC Universal. As the Vice President of the YMCA of Reading & Berks County, Pennsylvania, I can attest that Comcast has had and continues to have a major impact on our organization and our community.

At the Y, our overall goal is to promote strong kids, strong families and strong communities by addressing the most critical needs of Reading and Berks County. We offer transitional housing; single room occupancy programs; youth sports, recreation, and leadership programs; child care (including night care); and aquatics and wellness programs for all ages. In fact, the YMCA is Berks County's largest child care provider, offering subsidized care to nearly 1,000 kids.

Comcast is involved with us on a number of levels. The company's Senior Director of Government Affairs has served on our board since 2001 and is our incoming chairman. The company also makes possible our annual Breakfast of Champions for Youth. This highly anticipated event spotlights our programs and raises awareness among the public and business community about our efforts. Money from the breakfast supports our youth programs. Finally, several years ago company employees renovated our downtown Reading branch during Comcast Cares Day.

We have come to know Comcast as an honorable company committed to corporate citizenship. The YMCA of Reading and Berks County is fully behind the company in its effort to join with NBC Universal.

Sincerely,

Kim Johnson, Vice President
YMCA of Reading and Berks County
