

People,

On the vitally important subject of the FCC proceeding 10-127, "In the Matter of Framework for Broadband Internet Service," Commissioner Michael Copps has said:

"I, for one, am worried about relying only on the goodwill of a few powerful companies to achieve this country's broadband hopes and dreams. We see what price can be paid when critical industries operate with unfettered control and without reasonable and meaningful oversight. Look no further than the banking industry's role in precipitating the recent financial meltdown or turn on your TV and watch what is taking place right now in the Gulf of Mexico."

I agree with Commissioner Copps.

FCC Chair Julius Genachowski wants to reclassify broadband ISPs as telecommunications common carriers for the purpose of barring them from unfairly discriminating against Internet services and applications.

We need strong net neutrality protections in America, and FCC Chair Julius Genachowski's "Third Way" proposal for net neutrality rules should be implemented in as strong a form as possible as soon as possible.

Save the internet!

Implement strong net neutrality rules and laws now!

Thank you.
