Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As a former member of the New Hampshire House of Representatives, I am aware of and have been impressed by Comcast's economic contributions to our state. It is because of these contributions, I am writing today to ask that you approve this venture.

Comcast provides critical internet and telecommunications connectivity to over 300,000 New Hampshire businesses and residences. They have invested millions of dollars to upgrade the network to and now offer speeds of 50 Mbps and are planning speeds of more than 100Mbps to homes and businesses. In a small state with many rural communities this is a great benefit to our economic development efforts.

But we also benefit from Comcast Cares Day, an annual event when Comcast's local executives and employees, along with their friends and family, engage in a day of community service. This year, Comcast Cares Day helped make repairs at the Greater Nashua Dental Connection in Nashua, in past years they have volunteered at the Child Advocacy Center, Nashua Children's Home and several public parks and facilities.

I appreciate the opportunity to offer these comments to you as you and your colleagues consider this venture.

Sincerely,

Paul G. LaFlamme

CC: Commissioner Michael J. Copps  
Commissioner Robert M. McDowell  
Commissioner Mignon Clyburn  
Commissioner Meredith Attwell Baker
