Re: MB Docket No. 10-56

Dear Chairman Genachowski:

It is my understanding that your agency is evaluating the proposed Comcast – NBCU merger to determine if it is in the public interest and if consumers would be harmed or helped by the merger.

In my considered opinion, consumers would experience a significant advantage in the merger. In my capacity as a State Senator and earlier as a suburban Police Chief I have worked closely with Comcast for many years. I have found them to be an unusually responsive company in helping public officials at all levels communicate important information to our constituents. They have consistently gone beyond what could reasonably be expected of them to solicit our thoughts and concerns about their operations and have created many opportunities for local non-profit organizations to showcase their services and communicate with their clients.

Comcast should be given the opportunity to acquire NBCU's operations. In doing so, I believe that they will improve NBC's responsiveness to local needs and enhance the consumer's experience.

Sincerely,

A handwritten signature in black ink, appearing to read "John J. Millner".
