As an employee of Sorenson Communications Canada, I would like to express my support for the Canadian Sorenson VRS Center's to remain open. We have the utmost respect for the policies and procedures that the FCC has established and will continue to uphold them in good faith.

Working for Sorenson has been a great privilege. It is my belief that Sorenson VRS has enabled the American Deaf community to converse freely after years of communication barriers. Our center is always taking calls, from the beginning of the work day, until the center closes. It is my belief that closing the Canadian Centers would mean longer wait times for Deaf customers.

In Canada there are over 300 employees working at Sorenson. If our centers were to shut down not only will we be unemployed, but our families will be forced to suffer the consequences of one less household income.

Sorenson is an outstanding company, and I am proud to be part of such an advanced technological entity. To reiterate, it is my hope that you will once again reconsider the closure of Sorenson Communications, Canada.

Respectfully,

Jeanne Dixon
