RE: MB Docket No. 10-56

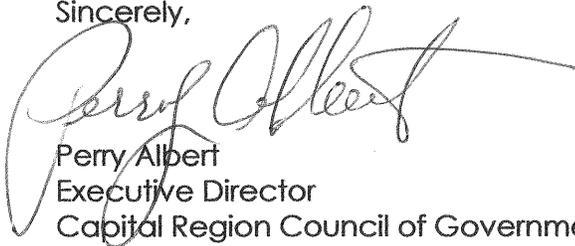

Dear Chairman Genachowski and Commissioners:

I am writing to voice my support for Comcast's proposed partnership with NBC Universal. As the executive director of the Pennsylvania Capital Region Council of Governments, I have worked directly with Comcast and can speak to the company's reliability and trustworthiness.

The Capital Region Council of Governments is an organization representing 44 municipalities in the Harrisburg, Pennsylvania area. One of the issues that we work on is resolution of cable complaints that residents have raised regarding their providers. Comcast has always resolved any reported complaints in a timely and professional manner. In addition, I note that Comcast is involved in dozens of community events hosted by the Council and its member municipalities.

Comcast's corporate responsibility and community involvement are commendable, and I fully support the company's new endeavor.

Sincerely,

Perry Albert
Executive Director
Capital Region Council of Governments
