Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am a Chicago resident who has watched the development of cable television in our community over the past 25 years. During this time, we have had many cable companies offering different services and very different service quality. In my experience, Comcast is hands down the best.

They offer a more reliable picture, ever increasing speeds for the internet and low cost phone service. I particularly like their video on demand library which no other company comes close to providing. Moreover, they seem to be a real part of our community and I would recommend that you approve their purchase of NBC. Comcast can only improve NBC's long term prospects.

Sincerely,

A handwritten signature in cursive script that reads "Ken Dunkin".
