Re: MB Docket 10-56

Dear Chairman and Commissioners:

We are pleased to submit this letter with regard to the above subject matter and relative to providing public comment on the proposed Comcast-NBC Universal joint venture.

Our organization fosters public/private collaboration around issues of career and entrepreneurial development. These projects require a significant amount of outreach, communication savvy and people skills in order to build and maintain partnerships and effectively engage community.

Approximately one year ago, Comcast stepped up to the plate along with the New Hampshire Department of Economic Development and Public Service Company of New Hampshire, to provide this expertise, as well as financial support for a public/private initiative to drive small business creation and growth.

As a communication organization, we could not have asked for a better partner to help us work effectively in meeting community needs, building social capital and fostering the social and economic prosperity of our citizens. We are encouraged regarding the proposed joint venture with NBC Universal as it promises even further reach and capacity for Comcast to continue to make a positive difference in the community.

If I may provide any further details relative to this subject matter, please do not hesitate to contact me.
Thank you.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Deborah A. Osgood".
