Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As the Executive for Wayne County, Michigan, I have had the opportunity to work with Comcast and witness both the community commitment and good service the company provides. With that in mind, I encourage the FCC to approve Comcast's pending partnership with NBC Universal.

In Wayne County, Comcast has a reputation for philanthropy and for support of programs and organizations that are important to the community. Comcast airs public service announcements, offers On Demand programming and interviews our local officials on its Newsmakers show. These services benefit our nonprofits and governmental bodies and spread the word about issues of importance to our citizens.

Comcast also provides quality services to our local businesses, making them more competitive and efficient. With high-speed Internet and telecommunications offerings designed to fit the needs of businesses small and large, I know Comcast is giving our entrepreneurs and operators some of the tools they need to grow and succeed.

Perhaps most importantly, Comcast is a major jobs provider in Wayne County and across Michigan. In Wayne County alone, Comcast employs 600 people at its facility in Plymouth Township. It also maintains offices in Taylor, Dearborn, Dearborn Heights, Woodhaven and Detroit. In the current economy we are fortunate to have Comcast located here and employing our people.

Comcast has time and again shown itself to be a good corporate citizen in Wayne County. By providing top quality services, using its resources for community causes and employing our people, Comcast is an important factor in the quality of our life. I believe strongly that this type of good corporate citizenship should be encouraged, and I hope that you will do just that by approving Comcast's partnership with NBC Universal.

Regards,

Robert A. Ficano
Wayne County Executive

CC: Commissioner Michael J. Copps
Commissioner Robert M. McDowell
Commissioner Mignon Clyburn
Commissioner Meredith Attwell Baker
