In the Miscellaneous External and Fraudulent/Harassment Call categories, you will find several complaints that we believe to be associated with fraudulent activity over Internet Relay. In some cases, it is not clear that the calls which generated these complaints came through the relay centers that process Hamilton Internet Relay calls. However, Hamilton believes that it is important for the Commission to have this information. Hamilton continues to implement protocols specifically designed to prevent calls originating from an international IP address from accessing the relay, and to take other measures to counter Internet Relay fraud in a manner consistent with the guidance provided by the Commission in the Public Notice dated June 18, 2004. *See FCC Reminds Public of Requirements Regarding Internet Relay Service and Issues Alert*, Public Notice, DA 04-1738 (rel. June 18, 2004).
