

I am very disappointed to hear that there is a proposal to cut funding for web hosting services from the 2011 E-Rate Eligible Services List (ESL) within the E-Rate Program. Our small district uses our website portal for getting information out to the parents in numerous ways. Parents can check their students grades, learn of upcoming events, check their students homework assignments, learn about the district, school, scholarship applications, school board meetings, and many, many more opportunities. Without the support of the erate program, our small district would find it difficult if not impossible to host a website in the manner in which we do now . Thank You.
