RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am contacting you today in regards to the Comcast and NBC joint venture. It is clear from our experience working with Comcast that this is a company dedicated to advancing local communities and we believe that this partnership will bring even more opportunities for local programming.

Adams Community TV is non-profit community media company. We are dedicated to improving the lives of the people in South Central Pennsylvania by providing information about local talents, our area's unique history and local residents, as well as hometown athletic and cultural events.

It's no exaggeration to say that without the help of Comcast, our organization would have never been able to take off. Comcast has not only added our channel to its digital lineup in the York area but it has also helped our organization secure grants through Gettysburg Borough. Comcast understands the importance of quality local programming that directly reaches out to Pennsylvanians. Because of their support we are now able to deliver 1,500 programs to 32,000 citizens annually.

We are convinced that once Comcast combines with NBC, there will be even more local programming opportunities and we hope you will join us in supporting this promising joint venture.

Thank you,

Ronald Shultz

RE: MB Docket 10-56

Dear Chairman and Commissioners:

I am writing in support of the NBC4 and the Comcast, NBC Universal Joint Venture.

NBC4 has supported the National MS Society, National Capital Chapter for over a decade. The station has donated both the production and the airtime for public service announcements and advertising to promote the Society's mission of a world free of multiple sclerosis, and our largest fundraising and awareness campaign, Walk MS.

On-air personalities have served as honorary chairs for this and other Society events, speaking out publicly on air and at the events about their support of our cause. The station has hosted awards parties for our key supporters and top fundraisers in their studios, and been a generous and supportive partner of our efforts. In the time that they have supported Walk MS in the Washington DC metropolitan area, the event has grown from raising \$200,000 annually to raising over \$1,000,000 annually.

NBC4 is clearly invested in giving back to their community. They have established themselves as a strong supporter of many different health initiatives and causes through their annual Get Healthy 4 Life campaign. We are hopeful that the Comcast and NBC Universal Joint Venture will provide additional resources for NBC4 to expand its great work in the community

Thanks in advance for your consideration,

J. Christopher Broullire
Chapter President

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am contacting you today in regards to the Comcast and NBC joint venture. It is clear from our experience working with Comcast that this is a company dedicated to advancing local communities and we believe that this partnership will bring even more opportunities for local programming.

Adams Community TV (ACTV) is non-profit community media company. We are dedicated to improving the lives of the people in South Central Pennsylvania by providing information about local talents, our area's unique history and local residents, as well as hometown athletic and cultural events.

It's no exaggeration to say that without the help of Comcast, our organization would have never been able to take off.
