

I am a small business owner and my business receives 35% of its revenues from Internet Sales. If you do not maintain the neutrality of the web I am certain that the "big players" in my industry will be able to monopolize and crowd out smaller businesses like mine. I provide jobs with benefits to about 20 people in Maine and I worry that the changes they will be able to achieve will cause me to have to reduce my workforce and curtail purchases that I make with other businesses in Maine.

The FCC must have the power to protect consumer access to the most important communications medium of our time. The FCC must stand with me and keep the Internet in the hands of the people who use it every day. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers.

Sincerely,

Halcyon Blake
