

How sad that this even has to be done. Is this the caliber of people at the FCC. Judging how the FCC has handled our public airways, TV and radio distribution over the years it is a no brainer that private industry will corrupt the internet faster than the other two.

WHAT MAKES YOU THE FCC FOR ANY REASON THINK THAT PRIVATE INDUSTRY THAT HAS PROVEN BEYOND A SHADOW OF DOUBT THAT THEY ARE JUST GREEDY AND IRRISPONSABLE CARING ABOUT NOTHING BUT EXCESSIVE PROFIT.

Letting these corrupt media giants get their greedy hands on the internet would be the BIGGEST MISTAKE OF ALL. 1000% against anyway shape or form of having private industry ruin the free internet.

The FCC must have the power to protect consumer access to the most important communications medium of our time. The FCC must stand with me and keep the Internet in the hands of the people who use it every day. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers.
