

Sir Please do not allow the big companies to step on my freedom of speech rights by monopolizing the internet for profit. Big Companies are being too greedy, this country was built by the people, for the people  
and with the people where would those greedy companies be without the little guy's money in all their endeavors, What if everyone stopped using these companies? Forget it! thats why they are trying to get their  
hooks on the internet not for the people but for the almighty profit dollar that they will use against us  
by  
their lobbying my Government  
Sincerely Upset

I rely on the Internet as a public platform for free speech, equal opportunity, economic growth and innovation. Without vital Net Neutrality protections, companies like Verizon and Comcast, which have a commercial incentive to limit the free-flowing Web, can decide whether I will have a voice online. These companies should not have the power to determine my fate on the Internet.

The FCC must have the power to protect consumer access to the most important communications medium of our time. The FCC must stand with me and keep the Internet in the hands of the people who use it every day. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers.
