Re: MB Docket No. 10-56

Dear Chairman Genachowski:

The MetroHartford Alliance, the City of Hartford's Chamber of Commerce and the region's economic development leader, represents nearly 1,000 member organizations with over 110,000 employees. It is the mission of our members to support the attraction and retention of jobs, capital and talent to the Hartford region. Together we are committed to the region's future economic growth. To this point, we write today regarding the proposed merger between Comcast and NBC Universal.

Any merger of two national companies inevitably has an impact on local business communities. As you review this merger, we hope you will consider the potential impact on our local economy in Connecticut. Comcast has been a member of the MetroHartford Alliance since 1995 and a Strategic Partner since 2005, helping to sustain our initiatives to promote Hartford and its suburbs as a premier place for all people to live, work, play and raise a family. The company supports the Alliance directly through dues, and Comcast Vice President Jeff Freyar serves as a member of our Economic Development Council.

More specifically, Comcast is an outstanding community partner. Comcast and its employees provide one-on-one mentoring to elementary school children through Nutmeg Big Brother Big Sisters, support after school arts programming through the Greater Hartford Arts Council and foster initiatives of the Urban League, the Puerto Rican Forum and the YMCA.

We know that Comcast will continue their record of exemplary corporate citizenship in any future merged entity, and urge you to keep this in mind as you consider this proposed merger. Thank you for your consideration.

Sincerely,

Theodore S. Sergi

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing in support of the proposed joining of Comcast and NBC Universal. As the CEO of the Boys & Girls Club of Greater Nashua, New Hampshire, I can attest to Comcast's record as a good corporate partner and its commitment to the communities it serves.

With Comcast's support, the Boys & Girls Club of Greater Nashua annually serves 4,200 boys and girls ages 5-18 in Nashua, Merrimack and Litchfield, New Hampshire. Offering a variety of programs and wholesome activities to build attitudes, skills, values and behaviors that enable youth to succeed in adulthood, the Club's vision is for all children to have a safe place to go after school to develop the best within themselves and experience the joys of childhood.

Comcast has played a key role in enabling us to serve thousands of youth each year. Comcast has been a regular sponsor of our Steak and Burger Dinner, one of the Club's primary fundraising events. Comcast has also helped provide our Club with the technology we need to educate our kids. In addition to offering our Club courtesy internet and cable service, Comcast also provided us a grant to upgrade our technology center with new computers, printers and equipment, making it state-of-the-art.

Comcast has also donated its sweat equity to our mission as well, with its employees taking time out of their busy schedules to read to our younger club members as part of our Read Across America program. We are especially grateful for this, as it means a great deal to the young people we serve to have exposure to such wonderful role models.

As you can see, Comcast has been a big part of the success of the Boys & Girls Club of Greater Nashua. I ask you to keep Comcast's dedication in mind as you review its proposal to join with NBC Universal.

Sincerely,

Norm Bouthillette, CEO
Boys & Girls Clubs of Greater Nashua, N.H.

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

On behalf of the Greater Boston Chamber of Commerce, I am writing to express my strong support for the proposed joint partnership between Comcast-NBC Universal.

The Greater Boston Chamber is a broad-based association representing more than 1,600 businesses of all sizes from virtually every industry and profession in our region. We provide leadership in creating a healthy climate for economic development and job creation. Our chamber is deeply committed to promoting diversity in every aspect of its work, and throughout the business, government, and civic life of our community. Comcast embraces these goals and our mission. We are proud to count Comcast among our membership.

Comcast's economic footprint and investment in telecommunications technology is an integral part of the Massachusetts's economy. Our growing IT industries are so significant that our chamber has dedicated an entire section to the high technology companies increasingly positioned to support Greater Boston's economic viability in the 21st century. In addition to its role as industry innovator, Comcast is also a solid state-wide job generator, providing nearly 5,000 positions which offer competitive pay and good benefits.

We have also come to know Comcast for its dedication to corporate citizenship. In addition to its sponsorship of our May 4th annual meeting and dinner, the company has noteworthy philanthropic and employee volunteer programs which enhance Boston's local communities. Comcast supports numerous community organizations, provides free internet and cable service to public institutions like schools and libraries, and has made a special

No. of Copies rec'd 0

commitment to youth and digital literacy programs designed to narrow, and hopefully eliminate, the digital divide. In 2009, Comcast's charitable investments exceeded \$11 million dollars in Massachusetts alone.

The Greater Boston Chamber proudly supports activities that enhance business growth, employment and the overall well-being of our region. The transaction between Comcast and NBC Universal offers new possibilities for the telecommunications industry. I urge you to support this transaction for the potential it offers businesses, consumers and the communities of Greater Boston.

Sincerely,

Paul Guzzi

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I write in support of Comcast's joint venture with NBC.

Comcast truly has a reputation for being a partner in the communities it serves, including mine. In addition, Comcast has rolled-out high speed "wideband" Internet last year, providing families and local businesses with excellent connections to the Internet.

Comcast is also a supporter of our local organizations and local community access organizations. Here in Massachusetts, we are fortunate to have committed member of the business community, providing good service and good jobs.

As the communications and technology industries continue to evolve, the new joint venture between Comcast and NBC represents a great opportunity. Both companies have a legacy of providing great quality and value to American consumers and have shaped much of the landscape of American television. Together, I am sure they will continue to lead the industry in positive ways, setting an example with innovation and creativity.

Thank you for your consideration.

Best regards,

Charlene Rideout

Dear Chairman Genachowski and Commissioners:

I write in support of Comcast's joint venture with NBC.

During difficult economic times like these, it's important that employers be committed members of their local community as well as stable employers. One of the most consistent members of the business community here in Massachusetts has been Comcast. The company's commitment to investment in our community and their charitable activities speaks volumes to its corporate citizenry in the areas it provides service.

I am confident that Comcast's local connections will grow as the company grows and urge you to approve its new venture with NBC.

Re: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

At Dottie's House we strive to provide safe housing for women and children through a program that empowers them to become self-sufficient and live free from violence. We provide transitional housing to women and children who have survived domestic abuse. Through our services, these families are provided a safe environment, where mothers can also learn new skills to return back to the job force.

I am contacting you today in regards to the proposed Comcast and NBC Universal joint venture. We value Comcast not only for the video, broadband and voice services it provides, but also for its commitment to our organization. For Comcast Care Day, we had Comcast volunteers come to our home and help paint rooms and fences.

Comcast's broadband services allow our mothers to get online and participate in programs and applications that help them develop new skill sets so they will be more competitive in today's challenging job market. Comcast has also made a tremendous effort through programming initiatives like Sprout to ensure that children have appropriate television content. It is important for parents, especially mothers who have gone through domestic abuse, to be able to rely on safe, fun and suitable programming for children.

We believe that Comcast will continue its endeavors to protect our families while assisting local community organizations like ours.

Sincerely,

Carol A. Wolfe
Executive Director / Vice President

June 9, 2010

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As superintendent of New Haven Public Schools, it is my responsibility to ensure that our students receive the best possible education and resources available. Comcast has made so many things possible in our district that I feel it is incumbent upon me to express my support for the company and its proposed endeavor with NBC Universal.

Investment in our schools is an investment in the future. Comcast understands that digital literacy is a must in order for the current generation of students to succeed in the 21st century. To facilitate that, the company has donated free high speed internet and cable television services to the district's schools. Those services allow our students to learn and prepare for a future in the context of the digital age where information and ideas are exchanged on the internet.

Also, Comcast is a partner in Read to Grow, Inc., our effort to end illiteracy. Last year, Comcast announced a \$10,000 grant to Read to Grow, Inc. for the "Books for Kids" program. This funding made the distribution of 10,000 new and gently used books possible to New Haven's students.

Comcast is also a proud supporter of the City of New Haven's Summer Youth@Work program, which provides summer employment opportunities, workplace exposure and work readiness activities to youth who may be challenged by socio-economic or academic barriers to workplace success.

Additionally, on Comcast Cares Day, company employees, in partnership with the United Way, installed the first ever "Born Learning Trail" on the grounds of the Conte West Hills Middle School. The outdoor trail is a valuable community resource which provides physical learning activities designed for young children and their parents or caregivers. Comcast also sponsored the 2007 VH1 Save the Music Media Event and awards scholarships to selected students through its Leaders and Achievers Scholarship Program.

Comcast has proven its commitment to New Haven by funding programs that benefit both our local schools and our communities. I believe this is corporate citizenship at its best. I urge you to remember this as you proceed with your decision making.

Sincerely,

Reginald Mayo, Ph.D
Superintendent of Schools

June 18, 2010

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

I am writing in my capacity as Executive Director of the Pennsylvania League of Cities and Municipalities (PLCM) to express my support for the pending deal between Comcast and NBC Universal. PLCM is a nonprofit, nonpartisan association dedicated to improving Pennsylvania local government. Comcast has been an unfailing partner in achieving our mission.

Mr. Chairman, PLCM directly focuses on improving the capacity of our core communities and Comcast shares our values and puts its commitment into action not only by supporting our organization via our Business Leaders Network but also by investing in our community to provide invaluable services, protecting our children and families with the latest parental controls, and keeping us informed about local news and events. Our members have found the Comcast Newsmakers' segments as an especially beneficial communication tool.

Comcast has been extremely supportive of PLCM's efforts. We are proud that Comcast's Brian Jeter is one of two non-elected officials serving a one year term on our board and provides invaluable insight and support.

Pennsylvania is also home to Comcast headquarters. The company matters to our state and our municipalities. Please remember this as you review this very important and forward-thinking transaction.

This letter comes to you in support for Telemundo Chicago. Telemundo Chicago has been a great sponsor in the Hispanic/Mexican community in Cicero for many years. Many of our events have been given the proper media attention and support from Telemundo Chicago keeping our community informed of the many civic and community activities events we have for the Latino community.

Obtaining Telemundo Chicago, by Comcast will expand availability of over the air programming to the growing Hispanic community utilizing digital broadcast spectrum of telemundo as well as offering it to Telemundo affiliates nationwide. We believe that This merger will better serve the growing market of the Hispanic Community that Telemundo already serves.

If you have any questions about Telemundo Chicago please call me at (630) 886-6012 or at my office at (708) 656-3600 ext. 214

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As the Michigan State Senator representing the 24th State Senatorial District of Allegan, Barry and Eaton Counties, I would like to express my support for the proposed partnership of Comcast and NBC Universal. Comcast is one of Michigan's top corporate citizens and service providers.

I am a member of the Michigan Senate Energy and Policy Committee and I have had the opportunity to interact with Comcast closely. Comcast provides cable, telecommunications and broadband service to over 1.2 million citizens of our state. I have come to know Comcast's significant investments in Michigan via infrastructure and technology improvements. These investments benefit Comcast's business, but also make it possible for more of our residents to bridge the digital divide by gaining access to broadband service. The company even takes the provision of broadband one step further by providing it as a courtesy to many schools, libraries and centers of government in Michigan, including those in my district.

Comcast is also one of our top employers -- a fact that should not be overlooked in our current economic climate.

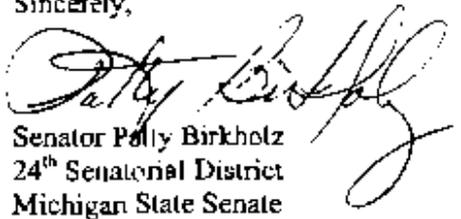

Further, Comcast has an exemplary record of adhering to its commitments, providing quality customer service, and caring about our communities here in Michigan. I appreciate that Comcast dedicates its resources to spread important messages to our constituents through its local Newsmakers program and by providing assistance with public service announcements. I am proud to have appeared on public service announcements to promote childhood reading.

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As the former Mayor of Nashua, New Hampshire, and presently a member of the administrative staff at Nashua Community College, I would like to take this opportunity to describe Comcast's investments in our community and to endorse its proposal to join with NBC Universal. Ever since Comcast arrived in Nashua, it has transformed our cable and Internet offerings and has made a positive impact on the lives of our residents.

In 2002, Comcast took over the cable system in Nashua and became our partner – not just a provider. The company made the transition easy by anticipating problems and working to address them in advance. Comcast has continued to provide exemplarily service to the community and our residents.

In addition, Comcast has demonstrated that it's more than a communications company, it's a community partner.

For example, Comcast has supported The Plus Company, an organization that helps developmentally challenged individuals live independent lives.

Plus (People Learning Useful Skills) is a comprehensive non-profit organization meeting the vocational, educational, residential, health care and social needs of nearly 300 people with developmental disabilities in the Nashua area. Comcast, one of The Plus Company's leading sponsors has greatly assisted in facilitating the program's success.

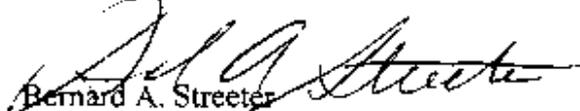

In addition, Comcast and its employees continue to support Marguerite's Place here in Nashua and their program assisting women in transition. Comcast volunteers working through the United Way of Greater Nashua annually provides painting and construction skills in sprucing up the various Marguerite's Place housing sites.

JULIUS GENACHOWSKI

As a former Mayor and a board member of PLUS and a former board member of the Greater Nashua United Way and Marguerite's Place, I appreciate the commitment Comcast has made to Nashua and I hope the FCC will take that into consideration while reviewing the Comcast and NBC Universal partnership proposal.

Sincerely,

Bernard A. Streeter
Director, Special Projects & Business Liaison
(Mayor, City of Nashua, N. H. 2000-2008)
