Washington, DC 20554

Re: MB Docket No. 10-56

June 21, 2010

Dear Chairman Genachowski,

I am writing to express my support for Comcast as it enters into new business ventures. Over the years, we at the Home Builders Association of Greater Chicago have been delighted to learn that at Comcast, promises made are promises kept.

Comcast has continually strived to enhance its products and to provide strong customer service to our residents. Today, Comcast provides our residents with high-speed Internet access in addition to cable television services, which now include digital channels, HD, On Demand programming and 24/7 customer service.

Comcast has abided by its commitments. Comcast is a strong business member of the community in every way. Our residents get the same high-quality care and attention from Comcast as its customers who live in the more crowded, bustling metropolises nearby. In addition, with the *Comcast Newsmakers* program, Comcast has lived up to its commitment to provide viewers with educational and informative programming.

As a business leader whose community has been well-served by Comcast, I encourage you to approve its partnership with NBCU.

Sincerely,  
Home Builders Association of Greater Chicago

Rita Unzner  
Director of HBA Services
