

I rely on the Internet as a public platform for free speech, equal opportunity, economic growth and innovation. Without vital Net Neutrality protections, companies like Verizon and Comcast, which have a commercial incentive to limit the free-flowing Web, can decide whether I will have a voice online. These companies should not have the power to determine my fate on the Internet.

The FCC must have the power to protect consumer access to the most important communications medium of our time. The FCC must stand with me and keep the Internet in the hands of the people who use it every day. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers.

If this body of the FCC dose't do the will of the people, then you violate Constitution of the United States and in it shall have all the power of the peoples. By capping growth only to these companies. You then stop any compensation. That will stop growth of the Republic. Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances. You can then be prosecuted or sued. If your part of the answer then you are part of the problem. Stop.. think for your self...Does this. ("Think of your fellow man. lend them a helping hand. put a little love in your heart")
