Changing Lives.**

Re: MB Docket No 10-56

Dear Chairman Genachowski:

On behalf of the Urban League of Detroit and Southeastern Michigan (ULDSEM), I am sending this communication concerning the proposed merger of Comcast and NBC- Universal. I certainly want to share with the Federal Communications Commission (FCC) our views on the commitment of both companies to the communities in which they operate, and express support of their merger plans.

Both Comcast and NBC-Universal successfully utilize the national reach of their companies working constantly to improve the lives and circumstances of individuals in our communities. These companies are known as great corporate citizens making a visible positive influence in our communities.

In regards to Comcast specifically, participants in the Urban League of Detroit and Southeastern Michigan's College Club-Project Ready program, as well as, students throughout the Detroit metropolitan area utilize our Comcast supported computer lab daily in their employment seeking efforts. The success of this Comcast sponsored lab is constantly being confirmed by lab users like Ms. Ameenah Green, a recent Workforce Development client and college graduate, who as a direct result of her frequent use of the Comcast Lab, was successful in securing a position as a Foster Care Worker.

The Urban League of Detroit and Southeastern Michigan applaud Comcast and NBC-Universal individually and collectively for their long history of promoting appropriate, wholesome and educational programming to viewing audiences and internet users, throughout Detroit and Southeastern Michigan.

The Urban League of Detroit and Southeastern Michigan thank you for this opportunity to express our views and offer support to two positive, conscientious and responsible corporate citizens and neighbors. We urge the FCC's support of this proposed merger.

Sincerely,

N. Charles Anderson
