Agreement that could be read to restrict 9-1-1 authority's determinations on rate center specifications in accordance with PUC rules⁴ are beyond the scope of what can be determined in an Interconnection Agreement between Verizon and Intrado. Given that a proper and reasonable reading of an Interconnection Agreement can not adversely impact 9-1-1 authority or authorize new charges to the 9-1-1 authority, then Texas 9-1-1 Agencies do not object to the Interconnection Agreement with these clarifications as it would not adversely affect their interests as required by PUC Interconnection R. 21.69.

Respectfully submitted,

VINSON & ELKINS L.L.P.

ON BEHALF OF THE TEXAS 9-1-1 ALLIANCE

⁴ 1.3.2 For Verizon End User 911/E-911 Calls delivered by Verizon to Intrado Comm for the transmission and routing of such 911/E-911 Calls by Intrado Comm to PSAPs for which Intrado Comm is the 911/E-911 Service Provider, Verizon shall provide for transmission and routing of such 911/E-911 Calls with ANI from Verizon End Users to the POI(s) established by the Parties at technically feasible Point(s) of Interconnection on Verizon's network in a LATA. In providing for transmission and routing of 911/E-911 Calls from Verizon End Users to the POI(s) established by the Parties at technically feasible Point(s) of Interconnection on Verizon's network in a LATA, Verizon shall have the right to use such services, trunks, facilities, arrangements and the like (including, but not limited to, switches and selective routers located at points between the Verizon End Users and the POI(s) established by the Parties at technically feasible Point(s) of Interconnection on Verizon's network in a LATA) as Verizon in Verizon's sole discretion may decide to use. For the avoidance of any doubt and without in any way limiting Verizon's rights under the preceding sentence, in providing for transmission and routing of a 911/E-911 Call from a Verizon End User to the POI(s) established by the Parties at technically feasible Point(s) of Interconnection on Verizon's network in a LATA, Verizon, in Verizon's sole discretion, may elect to use one or more switches or selective routers located between the End Office serving the Verizon End User and the POI(s) established by the Parties at technically feasible Point(s) of Interconnection on Verizon's network in a LATA....
