

The Honorable Julius Genachowski  
Chairman  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

July 30, 2010

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As Sheriff of Harris County, Texas and former Houston City Councilman, I have worked alongside Comcast for many years. Together we have made Harris County a safer and better connected community – no small feat as the most populous county in Texas with 4 million residents. I encourage the Federal Communications Commission to consider these views as it reviews the proposed union of Comcast and NBC Universal.

Not only does Comcast provide solid jobs for hundreds of Houstonians, it also helps me in my current role as Sheriff, offering its On Demand and Newsmakers programs to address safety issues in and around Harris County. In fact, just last year I recognized the company for its community commitments at Harris County's annual Crime Stoppers Luncheon and I also helped launch the On Demand Houston Police Blotter. This service lets our citizens know about issues of concern and helps identify and catch criminals with the community's help.

Comcast is not just a business operating in Harris County, it is a partner in our effort to be a better and safer community.

I hope the FCC will keep all that Comcast does in mind and permit the NBC Universal partnership to move forward.

Regards,

  
Adrian Garcia  
Sheriff, Harris County, Texas

CC: Commissioner Michael J. Copps  
Commissioner Robert M. McDowell  
Commissioner Mignon Clyburn  
Commissioner Meredith Attwell Baker
