

I rely on the Internet as a public platform for free speech, equal opportunity, economic growth and innovation. Without vital Net Neutrality protections, companies like Verizon and Comcast, which have a commercial incentive to limit the free-flowing Web, can decide whether I will have a voice online. These companies should not have the power to determine my fate on the Internet. The FCC should do everything in its power to protect an open internet that was developed with taxpayer money and belongs to the public commons. It should in no way, ever, be subject to the rapacious and often criminal whims of corrupted and corrupting companies like Verizon, Comcast, ATT, etal. Please stand up for what is right for all Americans on not just the richly corrupted and corrupting zombie corporations that are trying to destroy America and silence Americans.

The FCC can't cut private deals that would hand control over the Internet to a few massive phone and cable companies. Any compromise that allows Internet providers to build toll lanes online is not real Net Neutrality.

The agency must stand with the public and protect consumer access to the most important communications medium of our time. The FCC must regain its resolve to protect Net Neutrality on wired and wireless networks. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers.

The FCC should do everything in its power to protect an open internet that was developed with taxpayer money and belongs to the public commons. It should in no way, ever, be subject to the rapacious and often criminal whims of corrupted and corrupting companies like Verizon, Comcast, ATT, etal. Please stand up for what is right for all Americans and do not bend or bow to the richly corrupted and corrupting zombie corporations that are trying to destroy America and silence Americans just to put a couple of more dirty dollars in the pockets of the careless rich overlords.
