

I depend upon free, unrestricted access to information and ideas.  
Corporations shouldn't mess with this beautiful resource.

Please please act swiftly to prevent Google and Verizon from radically altering the information world as we know it...

If the FCC cares about freedom of speech, if it cares anything about free access to information, it will act swiftly to prevent Verizon and Google from dismantling the Internet as we know it.

Furthermore, the FCC cannot and should not private deals that would hand control over the Internet to a few massive phone and cable companies. Any compromise that allows Internet providers to build toll lanes online is not real Net Neutrality.

The agency must stand with the public and protect consumer access to the most important communications medium of our time. The FCC must regain its resolve to protect Net Neutrality on wired and wireless networks. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers.
